

Specialist Leader Of Education Profile

Sharon Bianco

Background Experience

I have 25 years of teaching experience specialising in Art and Photography. I lead a flourishing, exemplary Curriculum Area that continually achieves outstanding results, well above national expectations and previously have successfully led the teaching of Art and Design, Photography, Textiles, Design and Technology, ICT and PSHE across the school's age and ability range.

Passionate about Art, Design and Photography, I have the highest expectations as an engaging and enthusiastic practitioner. I am committed to ensuring that all students achieve their full potential.

I present a strong, open management style, to inspire, support and reassure staff, students' parents and carers. What matters at all times is that a relationship of trust exists between leader and partners, requiring considerable skill which combines vision and direction with energy, enthusiasm, a warm personality and above all a sense of humour and perspective. I have the respect of colleagues and treat people equitably and with dignity. Practical, realistic and extremely organised, I deal effectively with many challenges and I pride myself on being efficient and quick to respond to situations that occur in a professional, determined manner.

I have recently gained NPQSL status.

Areas of Expertise

I specialise in Secondary Education Art, Design and Photography although in my current role as Lead Practitioner for Arts at the Windsor Academy trust, I also mentor and lead primary school staff in the successful delivery of the Arts Curriculum.

- Coach and Mentor for PGCE students, NQTs and teaching staff.
- Member of strategic teaching and learning party.
- Lead on implementation of 'BLOOMS' language across school in Lesson objectives and feedback.
- Delivering all aspects of Art skills, to staff and students, via CPD or workshops.
- Data analysis.
- Differentiation, questioning and role modelling within the ART classroom.
- Member of NSEAD
- OCR exam moderator.
